

Carrying consoles, hanging
for easy and efficient die change on the press bed
load per pair 5 to 30 kN

Advantages

- Safe handling of heavy dies with ease
- Less downtime by easy and efficient die change
- High-quality, shock-resistant coating
- High load

Application

Carrying consoles allow a safe, effort and time-saving change of heavy dies on the press bed.

Description

The carrying consoles are hung in the hooks on the die changing side of the press. The hooks are supplied with the consoles. The consoles are used as a pair. Their size must be selected to suit the highest die weight.

The die is loaded onto the consoles using a crane or a forklift truck. The carrying rollers consist of high-strength hardened needle bearings. The end stop can be bypassed in one direction.

The surface is provided with a shock-resistant coating in RAL1004, golden yellow.

Delivery

- 2 carrying consoles (pair)
- 1 set of hooks (4 off)

Accessories

Hooks

Hanging consoles may be used for several presses. In this case, an additional set of hooks is required and can be ordered as an accessory or replacement (1 set = 4 off).

Part no. 7 18350007

Customised carrying consoles

as e.g. sliding carrying consoles are available on request.
